CLEAN ENERGY IN AFRICA FACES SHORT-CIRCUIT

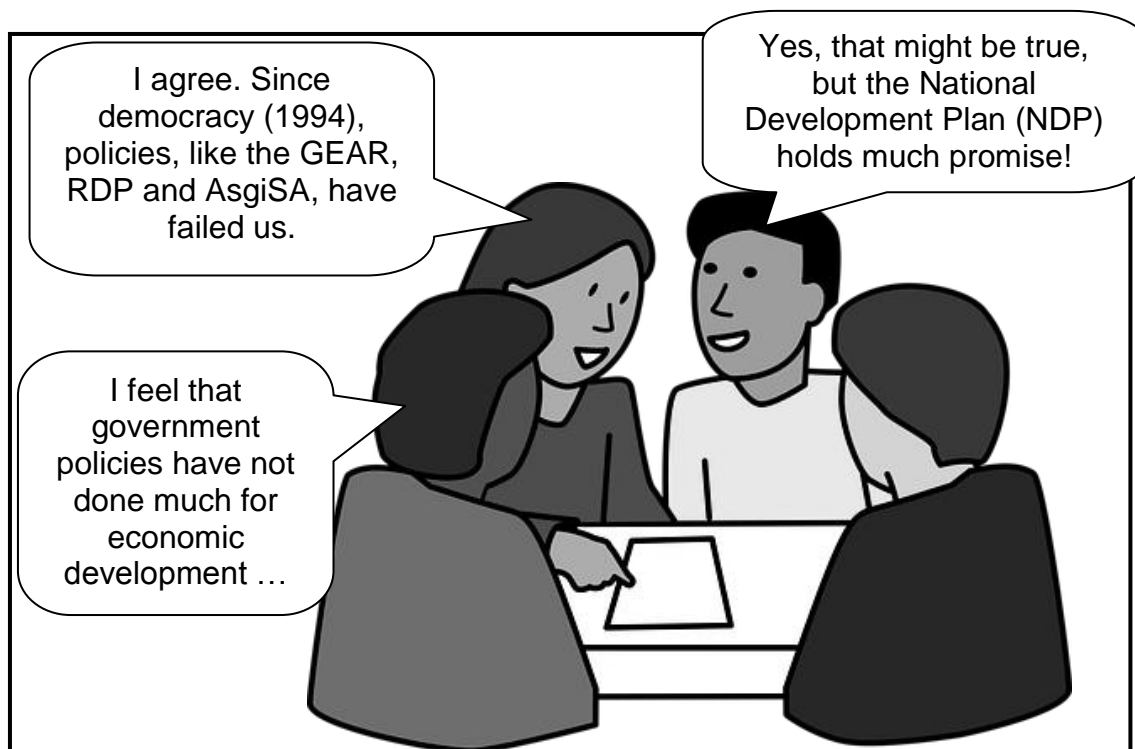

There is a high demand but a shortage of trained workers. In Sub-Saharan Africa, where more than 600 million people still lack *access to electricity*, off-grid renewable power is seen as one of the fastest ways to get energy to where it is needed, especially to remote and rural areas.

However, there are only a few trained workers able to plan, install and maintain clean energy systems. In Sub-Saharan Africa there are only 16 000 people working in renewable energy outside South Africa. This accounts for 0,1% of the *global renewable energy workforce which impacts globalisation*.
