REPUBLIC OF SOUTH AFRICA

SENIOR CERTIFICATE EXAMINATIONS/ NATIONAL SENIOR CERTIFICATE EXAMINATIONS

AGRICULTURAL SCIENCES P2

2021

MARKING GUIDELINES

MARKS: 150

These marking guidelines consist of 10 pages.

SECTION A**QUESTION 1**

1.1	1.1.1	D ✓✓	(10 x 2)	(20)
	1.1.2	B ✓✓		
	1.1.3	C ✓✓		
	1.1.4	C ✓✓		
	1.1.5	D ✓✓		
	1.1.6	C ✓✓		
	1.1.7	A ✓✓		
	1.1.8	B ✓✓		
	1.1.9	D ✓✓		
	1.1.10	B ✓✓		
1.2	1.2.1	D ✓✓	(5 x 2)	(10)
	1.2.2	F ✓✓		
	1.2.3	H ✓✓		
	1.2.4	C ✓✓		
	1.2.5	B ✓✓		
1.3	1.3.1	Shortage ✓✓	(5 x 2)	(10)
	1.3.2	Contract ✓✓		
	1.3.3	Dominant ✓✓		
	1.3.4	Epistasis ✓✓		
	1.3.5	Heredity ✓✓		
1.4	1.4.1	Green marketing/eco-labelling ✓	(5 x 1)	(5)
	1.4.2	Motivation ✓		
	1.4.3	Pedigree ✓		
	1.4.4	Haemophilia ✓		
	1.4.5	Polygenic inheritance ✓		

TOTAL SECTION A: 45

SECTION B**QUESTION 2: AGRICULTURAL MANAGEMENT AND MARKETING****2.1 Marketing****2.1.1 Definition of the concept marketing**

The process of planning and executing the conception, pricing, promotion ✓ and distribution of ideas, goods and services to consumers ✓

(2)

2.1.2 The differences between marketing and selling

(a) Marketing ✓

(1)

(b) Selling ✓

(1)

(c) Selling ✓

(1)

2.2 Inelasticity of demand**2.2.1 Deduction of the marketing concept**

Price inelasticity of demand ✓

(1)

2.2.2 A reason for the answer

The demand changed slightly despite the huge change in price ✓

(1)

2.2.3 Explanation of the reason why consumers responded in this way

Maize meal is a necessity/staple food ✓ people will therefore buy maize meal even with a price increase ✓

(2)

2.2.4 Identification of the factor leading to the differences in the number bags demanded

Price ✓

(1)

2.3 Cooperative marketing of avocados**2.3.1 Identification of the agricultural marketing system**

Cooperative marketing ✓

(1)

2.3.2 Indication of the role of agricultural marketing system

Production/selling/marketing ✓

(1)

2.3.3 TWO benefits for the marketing system to farmers

- Lower marketing costs/cost distribution ✓
- Requirements/services are supplied cheaper/bulk purchasing ✓
- More bargaining power ✓
- Access to funding/credit to producers ✓
- Higher prices are obtained ✓
- Elimination of the intermediaries ✓
- Potential for growth ✓
- Access to better infrastructure ✓
- Branding ✓
- Risk sharing ✓
- Farmer spend more time on producing than on marketing ✓
- Access to professional expertise ✓ (Any 2) (2)

2.3.4 TWO factors that may hamper the marketing of avocados

- Perishability/spoilage ✓
- Seasonal fluctuations in production ✓
- Lack of capital ✓
- Poor infrastructure ✓
- Wide distribution of production areas ✓
- Ineffective control over production ✓
- Risk/theft/accidents ✓
- Standardization ✓
- Large volume in relation to value/bulkiness ✓ (Any 2) (2)

2.4 Marketing function**2.4.1 Identification of the marketing function**

Packaging ✓ (1)

2.4.2 THREE characteristics of the cardboard boxes which make them suitable

- Clean/dry/undamaged/suitable for the product ✓
- No foreign tastes/odours ✓
- Free of visible signs of fungal growth ✓
- Strong/rigid/solid ✓
- Recyclable/biodegradable ✓
- Easy to handle ✓
- Identification ✓ (Any 3) (3)

2.4.3 Reason for using cardboard boxes with holes

Allow air flow/reduce spoilage/health reasons ✓ (Any 1) (1)

2.5 Drawing up a business plan**2.5.1 ONE aspect that should be included in****(a) The title page**

- Name of the business/person ✓
- Logo ✓
- Address ✓
- Contact details of the business/person ✓ (Any 1) (1)

(b) Human resource plan

- Number and type of employees ✓
- Competencies and skills needed ✓ (Any 1) (1)

2.5.2 Indication of an electronic resource

Computer software programmes ✓ (1)

2.5.3 TWO reasons for drawing up a business plan

- To test the feasibility/economic viability of the business idea ✓
- To secure funding ✓
- To determine financial needs/budget ✓
- To guide daily operations/outlines roles and responsibilities ✓
- To allow the entrepreneur to foresee problems ✓
- To reposition/analyse the business ✓
- To gain knowledge about marketing opportunities and competitors ✓
- To ensure effective business management ✓
- Mapping out the objectives/goals of the enterprise ✓
- Provides information on the internal/external business environment ✓
- Provision of time frames ✓ (Any 2) (2)

2.5.4 ONE problem encountered when drawing up a business plan

- Incomplete/with gaps ✓
- Vague ✓
- Unrealistic assumptions/over ambitious ✓
- Hiding weaknesses and risks ✓
- Not taking the competition into account ✓
- Using the incorrect format ✓
- Insufficient research ✓
- Insufficient technical details ✓ (Any 1) (1)

2.6 Entrepreneurship**2.6.1 Rearrangement of the phases of the entrepreneurial process**

- D ✓ (1)
- A ✓ (1)
- C ✓ (1)
- B ✓ (1)

2.6.2 TWO aspects of the SWOT analysis

- (a) **Internal** - Strength ✓ weaknesses ✓ (2)
- (b) **External** - Opportunities ✓ threats ✓ (2)
- [35]**

QUESTION 3: PRODUCTION FACTORS**3.1 Land**

- 3.1.1 **The life of soil is unlimited if used correctly** - Durability ✓ (1)
- 3.1.2 **12% of the soil in South Africa can be cultivated** - Availability ✓ (1)
- 3.1.3 **Soil may be damaged but cannot be destroyed** - Indestructibility ✓ (1)

3.2 TWO economic functions of land

- Land provides space/area ✓
- Provides raw materials ✓
- Provides minerals ✓
- Food security ✓
- Serves as collateral/security ✓ (Any 2) (2)

3.3 Labour

- 3.3.1 **Labour legislation**
Basic Conditions of Employment Act (Act 75 of 1997)/BCEA ✓ (1)
- 3.3.2 **TWO problems experienced by farm workers**
- Long working hours ✓
 - HIV/AIDS infections ✓ (2)
- 3.3.3 **TWO ways to address the impact of HIV/AIDS infections on farms**
- HIV/AIDS awareness campaigns/education/workshops ✓
 - Provisions of condoms ✓
 - Nutritional schemes ✓
 - Provision of ARV's ✓
 - Avoid multiple partners ✓
 - Support groups ✓
 - Treatment of STI's ✓ (Any 2) (2)
- 3.3.4 **TWO types of temporary farm workers**
- Casual worker ✓
 - Seasonal worker ✓ (2)

3.4 Income and expense record of a farm

- 3.4.1 **Calculation of the profit or loss of the cattle enterprise**
- Profit/loss = total income – total expenditure ✓
 - = R455 000 – R13 041 ✓
 - Profit = R441 959 ✓ (3)

3.4.2 Comparing the profit of the tomato and maize enterprises

- The profit of tomatoes is higher ✓ than that of maize ✓
- The profit of maize is lower ✓ than that of tomatoes ✓ (Any 1) (2)

3.4.3 TWO overhead expense items

- Fuel ✓
- Truck licence ✓ (2)

3.5 Capital**3.5.1 Indication of the types of capital**

- Fixed ✓
- Movable ✓
- Floating/working/production ✓ (Any 2) (2)

3.5.2 Total value of the assets

R20 300 000 ✓ (1)

3.5.3 Deduction of the type of credit obtained by the farmer

Medium term credit ✓ (1)

3.5.4 Justification of the answer

It is used to purchase movable capital/truck ✓ (1)

3.5.5 Capital item regarded as a liability

Truck ✓ (1)

3.6 Graph

Bar graph showing the prices of animal products in 2010 and 2020

CRITERIA/RUBRIC/MARKING GUIDELINES

- Correct heading ✓
- X-axis: Correctly calibrated with label (Products) ✓
- Y axis: Correctly calibrated with label (Price) ✓
- Correct units (c/kg) ✓
- Bar graph ✓
- Accuracy ✓ (6)

3.7 Differentiation between the internal and external forces

Internal forces - Those that have their origin on the farm and can be dealt with on the farm ✓ (1)

External forces - Those factors the farmer has no control over ✓ (1)

3.8 Definition of risk sharing as a strategy of management

The strategy in which the cost of consequences of a risk ✓ is distributed amongst several stakeholders ✓ (2)

[35]**QUESTION 4: BASIC AGRICULTURAL GENETICS****4.1 Variation**

4.1.1 Identification of the number of cows with the highest milk yield
6 ✓ (1)

4.1.2 Identification of the factor leading to the differences in milk yield
Feeding/Nutrition ✓ (1)

4.1.3 Indication of the cause of the differences in milk production
Environmental ✓ (1)

4.1.4 TWO genetic causes of variation

- Meiosis/crossing over/recombination of genes ✓
- Fertilisation ✓
- Mutation ✓ (Any 2) (2)

4.2 Crossing of white rose with a red rose to produce pink flowers

4.2.1 Determination of the type of dominance
Incomplete dominance ✓ (1)

4.2.2 Punnett square determining the genotypes/phenotypes of the F₂

Gametes	R	W
R	RR	RW
W	RW	WW

MARKING CRITERIA

- Correct gametes for parent 1 ✓
- Correct gametes for parent 2 ✓
- Correct offspring ✓
- Punnett square with gametes and offspring ✓ (4)

- 4.2.3 (a) **Phenotypic ratio of the F₂ generation**
1 red : 2 pink : 1 white ✓ (1)
- (b) **Calculation of the pink offspring**
- $\frac{2}{4} \times 700$ ✓
 - = 350 ✓ (2)
- (c) **The percentage of red offspring - 25% ✓** (1)

4.3 Breeding systems

- 4.3.1 **Identification of the animal breeding system**
Cross breeding ✓ (1)
- 4.3.2 **Reason for the answer**
Two different breeds are crossed/Hereford and Nguni ✓ (1)
- 4.3.3 **TWO characteristics of the offspring that makes it better**
- Higher growth rate ✓
 - More resistant to pests/parasites/diseases ✓ (2)
- 4.3.4 **TWO advantages of inbreeding**
- Uniform/homozygous offspring are produced ✓
 - Farmer obtain pure-bred groups ✓
 - Good characteristics from the ancestors are maintained ✓
 - Bad recessive genes can be eliminated ✓
 - Help with selection between family groups ✓
 - Herd has greater prepotency ✓ (Any 2) (2)

4.4 Pedigree

- 4.4.1 **Determination of homozygous or heterozygous**
- (a) 4 - Homozygous ✓ (1)
- (b) 5 - Heterozygous ✓ (1)
- 4.4.2 **Reason for the answer**
The offspring has the recessive allele from the male parent/offspring 7 is homozygous recessive because it received one of its recessive allele from parent 5 ✓ (1)
- 4.4.3 **Indicate the genotype of individual:**
- (a) 2 - Rr ✓ (1)
- (b) 7 - rr ✓ (1)

4.5 Mutations

- 4.5.1 **Definition of mutation**
Is a sudden change ✓ in the genetic composition of an organism ✓ (2)

4.5.2 TWO types of mutagenic agents

- Physical ✓
- Chemical ✓
- Biological ✓

(Any 2) (2)

4.6 Genetic modification technique in plants**4.6.1 Identification of the genetic modification technique**

Agrobacterium tumefaciens/bacterial carriers ✓

(1)

4.6.2 Labelling structures**A** - Recombinant plasmid ✓

(1)

D - Transgenic plant/Genetically modified plant/GMO ✓

(1)

4.6.3 Definition of genetically modified plant

A plant whose DNA has been manipulated through technology ✓ to change its original DNA ✓

(2)

4.6.4 ONE advantage of genetic modification

- It is faster ✓
- More precise ✓
- Not limited to organisms of the same species ✓

(Any 1)

(1)

[35]**TOTAL SECTION B: 105****GRAND TOTAL: 150**
