**QUESTION 3**

3.1 Study the sources below and answer the questions that follow.

**SOURCE A****BIAS AGAINST RELIGION?**

In a research study at US universities, it was found that Christian students made up a very small minority in their science faculties. One potential explanation is that science departments/faculties have a bias against Christian students, which can discourage and actively prevent Christian students from becoming scientists.

This study, conducted at science faculties at two university campuses, found that a biology professor rated a Christian student who went on a mission trip with his church group, as 'less employable, less competent, and less likeable' than students who did not reveal their Christian identity. Bias against Christians in the field of science may be restricted to a specific type of Christianity that scientists called fundamentalist and/or evangelic.

**SOURCE B****RELIGION IN THE MEDIA**

If you've felt that there's been increased discussion of religion in the British media in recent years, a ten-year study of various media shows that you're right. Coverage of popular religion, Christianity and public life, Islam and other religions, and atheism and secularism has all gone up since the attacks on the US Twin Towers on 9/11.

This is not restricted to news coverage, but is also evident in sports, entertainment and advertising. The single largest growth has been in the coverage of Islam and it is overwhelmingly negative: Islam is presented as 'a problem'. But coverage of Christianity is also high. Why should this be, when over this same period church attendance and orthodox Christian belief have declined?

Religion is still reflected in the language of popular culture and Christianity continues to be represented as part of national heritage and the British landscape. In a nation which is increasingly religiously illiterate as a result of declining participation, the media are more important than ever for informing the public about religious matters.

- 3.1.4 SOURCE B states that despite a decline in church attendance, media coverage of religion is high. Give TWO reasons why this is so. (4)
- 3.1.5 Why is there extra coverage of Islam (SOURCE B)? (6)
- 3.1.6 Do you think the media can help a 'nation which is increasingly religiously illiterate'? (SOURCE B) Give THREE reasons for your answer. (6)
- 3.2 What can religious organisations do to prevent negative media coverage? (10)
- 3.3 During the Covid-19 pandemic, the media played a major role in religion. Elaborate on this statement. (10)
