### 1.1 Determine the standard deviation.

1.2 How many countries lie within ONE standard deviation of the mean?
1.3 Is the following statement TRUE or FALSE? The last African country (592 recoveries), in the table, has better medical facilities than the others, therefore the number of recoveries are higher. Justify your answer.
1.4 After the total number of recoveries from Mozambique was added, the mean recoveries changed to 209,72. Determine how many people recovered in Mozambique.

## QUESTION 2

The table below represents the number of Covid-19 deaths (per week) recorded, for 5 weeks, in South Africa, since 01 May 2020.

| Week | 1 | 2 | 3 | 4 | 5 |
| :--- | :---: | :---: | :---: | :---: | :---: |
| No of Deaths | 62 | 69 | 160 | 236 | 265 |
