QUESTION 4: CORPORATE GOVERNANCE**(10 marks; 8 minutes)**

“Corporate governance is the system of rules, practices and processes by which a company is directed and controlled.”

Former Wall Street Journal reporter, R. Foster Winans was found guilty of securities fraud for using his knowledge of what would appear in the business-oriented newspaper, to his advantage, to make money on the stock market.

Loose lips indeed sink ships and in the case of R. Foster Winans, they engulfed him in an insider trading scandal. In his own words, Winans explained what happened.

“In the early 1980s when I was a stock market columnist at The Wall Street Journal, I stupidly agreed to tell a stockbroker what I was writing about that was scheduled to appear in the next day’s edition.

He made more than \$700 000 of which I received \$31 000, for trading in advance of the short-term effect that the column in the newspaper had on the prices of stocks mentioned.”

Winans served nine months in prison for his role in the fraud.
