INFORMATION:**FUMBLE RECOVERY! HOW GOOD LEADERS CAN FIX BAD DECISIONS THAT AFFECT OTHER STAKEHOLDERS.****Paragraph 1**

The decline of Mangray Ltd's market price, after the media shared the secret conversation of the CEO not engaging staff correctly, was a front-page story. The Human Resource Committee did its investigations and discovered that the CEO used inappropriate language when dealing with staff. It was found that some junior staff members knew of certain decisions before they were discussed by the board, and this hampered objective inputs of other directors.

Paragraph 2

Upon engaging with all parties, it was evident that there was a lack of communication between the CEO and stakeholders. The Human Resource Committee held a meeting with staff and emphasised the KING report which speaks of a dialogue, which can enhance or restore stakeholder confidence, remove tensions, relieve pressure on the company's reputation and offer opportunities to align expectations, ideas and opinions on issues.

Paragraph 3

The CEO of Mangray Ltd has reflected on how he has been taking decisions in order to build relationships with stakeholders and to accelerate the company's results. He has learnt not to operate in the shadow of the past, making decisions that disappoint stakeholders, overlooking other stakeholders' inputs and allowing processes to bring about change.
