#### MATHEMATICAL LITERACY P1 MARKING GUIDELINE

**MARKS:** 100

Symbol	Explanation
<b>M</b>	Method
<b>MA</b>	Method with accuracy
<b>CA</b>	Consistent accuracy
<b>A</b>	Accuracy
<b>C</b>	Conversion
<b>S</b>	Simplification
<b>RT</b>	Reading from a table/graph/document/diagram
<b>SF</b>	Correct substitution in a formula
<b>O</b>	Opinion/Explanation
<b>P</b>	Penalty, e.g. for no units, incorrect rounding off, etc.
<b>R</b>	Rounding off
<b>NPR</b>	No penalty for correct rounding minimum two decimal places
<b>AO</b>	Answer only
<b>MCA</b>	Method with constant accuracy

This marking guideline consists of 9 pages.

SA EXAM  
PAPERS

**NOTE:**

- If a candidate answers a question TWICE, only mark the FIRST attempt.
- If a candidate has crossed out (cancelled) an attempt to a question and NOT redone the question, mark the crossed out (cancelled) version.
- Consistent accuracy (CA) applies in ALL aspects of the marking guidelines. Stop marking at the second calculation error.
- **NOTE:** Consistent accuracy (CA) does NOT apply in cases of a breakdown.
- If the candidate presents any extra solution when reading from a graph, and table then penalise for every extra item presented.
- As a general marking principle, if a candidate has incurred one mistake and there is evidence of sound Mathematics thereafter, then that candidate should lose ONE mark only.

**Topics: F – Finance, DH – Data Handling, P – Probability**
