BUSINESS STUDIES

(PAPER 2)

NOTES TO MARKERS

PREAMBLE

The notes to markers are provided for quality assurance purposes to ensure the following:

- (a) Fairness, consistency and reliability in the standard of marking
- (b) Facilitate the moderation of candidates' scripts at the different levels
- (c) Streamline the marking process considering the broad spectrum of provincial markers
- (d) Implement appropriate measures in the teaching, learning and assessment of the subject at schools/institutions of learning

1. For marking and moderation purposes, the following colours are recommended:

| | |
|---------------------|--------|
| Educator: | Red |
| HOD/HD: | Green |
| District Moderator: | Orange |
 2. Candidates' responses must be in full sentences for SECTIONS B and C. However, this would depend on the nature of the question.
 3. A comprehensive marking guideline has been provided but this is by no means exhaustive. Due consideration should be given to an answer that is correct but:
 - Uses a different expression from that which appears in the marking guideline
 - Comes from another credible source
 - Is original
 - Use a different approach
- NOTE: There is only ONE correct answer in SECTION A.**
4. Take note of other relevant answers provided by candidates and allocate marks accordingly. (In cases where the answer is unclear or indicates some understanding, part-marks should be awarded, for example, one mark instead of the maximum of two marks.)
 5. The word 'Sub-max' is used to facilitate the allocation of marks within a question or sub-question.
 6. The purpose of circling marks (guided by 'max' in the breakdown of marks) on the right-hand side is to ensure consistency and accuracy in the marking of scripts as well as for calculation and moderation purposes.

7. Subtotals to questions must be written in the right-hand margin. Circle the subtotals as indicated by the allocation of marks. This must be guided by 'max' in the marking guidelines. Only the total for each question should appear in the left-hand margin next to the appropriate question number.
8. In an indirect question, the theory as well as the response must be relevant and related to the question.
9. Correct numbering of answers to questions or sub questions is recommended in SECTIONS A and B. However, if the numbering is incorrect, follow the sequence of the candidate's responses. Candidates will be penalised if the latter is not clear.
10. No additional credit must be given for repetition of facts. Indicate with an 'R'.
11. The differentiation between 'evaluate' and 'critically evaluate' can be explained as follows:
 - 11.1 When 'evaluate' is used, candidates are expected to respond in either a positive/negative manner or take a neutral (neither positive nor negative) stance, e.g. Positive: *'The autocratic leadership style provides strong leadership ✓ which makes new employees feel confident and safe.'* ✓.
 - 11.2 When 'critically evaluate' is used, candidates are expected to respond in either a positive/negative manner or take a neutral (neither positive or negative) stance. In this instance candidates are also expected to their responses with more depth, e.g. *'The autocratic leadership style provides strong leadership ✓ which makes new employees feel confident and safe ✓, as expectations/roles are clearly explained to avoid confusion'.* ✓

NOTE:

1. The above could apply to 'analyse' as well.
2. Note the placing of the tick (✓) in the allocation of marks.

12. The allocation of marks must be informed by the nature of the question, cognitive verb used, mark allocation in the marking guideline and the context of each question.

Cognitive verbs, such as:

- 12.1 Advise, name, state, outline, motivate, recommend, suggest, (list not exhaustive) do not usually require much depth in candidates' responses. Therefore, the mark allocation for each statement/answer appears at the end.

- 12.2 Define, describe, explain, discuss, elaborate, distinguish, differentiate, compare, tabulate, analyse, evaluate, critically evaluate (*list not exhaustive*) require a greater depth of understanding, application and reasoning. Therefore, the marks must be allocated more objectively to ensure that assessment is conducted according to established norms so that uniformity, consistency and fairness are achieved.
13. Mark only the **FIRST** answer where candidates offer more than one answer for SECTION B and C questions that require one answer.

14. SECTION B

- 14.1 If for example, FIVE facts are required, mark the candidate's FIRST FIVE responses and ignore the rest of the responses. Indicate by drawing a line across the unmarked portion.

NOTE:

1. This applies only to questions where the number of facts is specified.
2. The above also applies to responses in SECTION C (where applicable)

- 14.2 If two facts are written in one sentence, award the candidate FULL credit. Point 14.1 above still applies.
- 14.3 If candidates are required to provide their own examples/views, brainstorm this at the MSM to finalise alternative responses and consult with the Internal Moderator for approval.

14.4 Use of the cognitive verbs and allocation of marks:

- 14.4.1 If the number of facts are specified, questions that require candidates to 'describe/discuss/explain' may be marked as follows:

- Fact 2 marks (or as indicated in the marking guidelines)
- Explanation 1 mark (two marks will be allocated in SECTION C)

The 'fact' and 'explanation' are given separately in the marking guideline to facilitate mark allocation.

- 14.4.2 If the number of facts required is not specified, the allocation of marks must be informed by the nature of the question and the maximum mark allocated in the marking guideline.

- 14.5 **ONE mark may be awarded for answers that are easy to recall, requires one word answers or are quoted directly from a scenario/case study. This applies to SECTIONS B and C in particular (where applicable).**

- 15.8 If the candidate identifies/interprets the question **INCORRECTLY**, then he/she may still obtain marks for layout.
