1.3.4 When people or businesses are acquiring an influential interest in a business in another country or to a country building a factory abroad.

(4 x 1) (4)

**TOTAL SECTION A: [20]****SA EXAM PAPERS**

Proudly South African

**SECTION B**

Answer any ONE of the TWO questions in this section in the ANSWER BOOK.

**QUESTION 2****40 MARKS – 30 MINUTES**

2.1 Answer the following questions.

2.1.1 Name TWO theories used to explain the causes of the business cycles  
(2 x 1) (2)

2.1.2 Why are injections important in the South African economy? (1 x 2) (2)

2.2. Study the graph below and answer the questions that follow.

2.2.1. What is the equilibrium exchange rate from the information above? (1)

2.2.2. List any ONE cause of demand for foreign exchange. (1)

2.2.3. Briefly describe the term *exchange rate*. (2)

2.2.4. Why are terms of trade important in international trade? (2)

2.2.5. Redraw the graph above, and indicate what would happen in the market when the demand for dollars' increases. (4)

2.3 Read the extract below and answer the questions that follow.

SA EXAM PAPERS

Proudly South African

**SOUTH AFRICA CURRENT ACCOUNT**

South Africa's current account deficit shrank to ZAR 70.8 billion in Q3 2024, from a revised ZAR 75.3 billion in the previous three-month period. It was the smallest current account shortfall since Q3 2023. The gap in the services, income and current transfer account narrowed for a second consecutive quarter to ZAR 247.8 billion in Q3 from ZAR 254.7 billion in Q2. The broader deficit in the income account was counterbalanced by narrower deficits in the services and current transfer accounts, leading to a reduced overall deficit in the combined services, income, and current transfer accounts..

**Source: South African Reserve Bank**

- 2.3.1. Determine the value of the smallest current account shortfall since Q3 2023. (1)
- 2.3.2. Name any factor that counter balanced the broader deficit in the income account. (1)
- 2.3.3. Briefly describe the concept *balance of payments*. (2)
- 2.3.4. What is the significance of the balance on the current account? (2)
- 2.3.5. How can a surplus on the balance of payments affect South African economy positively? (2x2) (4)
- 2.4 Explain the relationship between *households* and *businesses* in the circular flow-model. (8)
- 2.5 Explain how changes in income affect the multiplier (4 x 2) (8)

**QUESTION 3****40 MARKS – 30 MINUTES**

3.1 Answer the following questions.

3.1.1 Name any TWO accounts in the balance of payments. (2 x 1) (2)

3.1.2 How does the South African government smooth out fluctuations in business cycles? (1 x 2) (2)

3.2. Study the extract below and answer the questions that follow.

**THE NATURE OF THE ECONOMY**

Policy decision can have a big impact on the circular flow and therefore economic growth. For example, a decrease in interest rates is likely to encourage firms to increase investment. This is due to the fact that they can borrow money at a lower rate of interest thus reducing the cost of borrowing. Therefore, firms will decide that it is best for them to invest whilst interest rates are low to avoid dependence on government spending.

[Adapted from [www.economicsonline.co.za](http://www.economicsonline.co.za)]

3.2.1 Identify an example of an injection from firms in the above extract (1)

3.2.2 Name any ONE participant not mentioned in the extract above in a three-sector economy (1)

3.2.3 Briefly describe the term *circular flow*. (2)

3.2.4 What is the importance of the financial sector in the circular flow (2)

3.2.5 How does Gross Capital Formation positively impact the economy (4)

3.3. Study the table below and answer the questions that follow.

| NATIONAL INCOME AND PRODUCTION ACCOUNTS OF SOUTH AFRICA<br>AT CURRENT PRICES |                  |
|--|------------------|
|  | R millions       |
| Compensation of employees  | 2 861 309        |
| Net operating surplus  | 1 795 000        |
| Consumption of fixed capital   | 797 230          |
| <b>Gross value added at factor cost</b>                                      | <b>A</b>         |
| <b>Gross value added at basic prices</b>                                     | <b>5 572 608</b> |

[www.google.com/GDP]

- 3.3.1 Identify an item made up of salaries and wages from the table above (1)
- 3.3.2 Name one item used to convert GDP at factor cost to GDP at basic prices (1)
- 3.3.3 Briefly describe the term *basic prices*. (2)
- 3.3.4 Explain the purpose of residual item in calculating GDP? (2)
- 3.3.5 Calculate the value of A. (Show ALL calculations) (2x2) (4)
- 3.4 Discuss *money market* and *capital market* as markets in the four-sector model. (8)
- 3.5 How can improving efficiency in markets stimulate aggregate supply? (4 x 2) (8)

**TOTAL SECTION B: [40]**
