## MARKING GUIDELINES

### ACCOUNTING P2 MAY - JUNE 2025

12 pages

#### MARKING PRINCIPLES:

1. Unless otherwise stated in the marking guidelines, penalties for foreign items are applied only if the candidate is not losing marks elsewhere in the question for that item (no penalty for misplaced item). No double penalty applied.
2. Penalties for placement or poor presentation (e.g. details) are applied only if the candidate is earning marks on the figures for that item.
3. Unless otherwise stated, give full marks for correct answers. If answer is incorrect, mark workings.
4. If a pre-adjustment figure is shown as a final figure, allocate the part-mark for the working for that figure (not the method mark for the answer). Note: if figures are stipulated in memo for components of workings, these do not carry the method mark for the final answer as well.
5. Unless otherwise indicated, the positive or negative effect of any figure must be considered to award the mark. If no + or – sign or bracket is provided, assume that the figure is positive.
6. Where indicated, part-marks may be awarded to differentiate between differing qualities of answers from candidates.
7. If candidates provide more than the required number of responses, inspect all responses to give the benefit to the candidate. Penalties may be applied for foreign entries if candidates earn full marks on a question (max. -2 per Q).
8. Where penalties are applied, the marks for that section of the question cannot be a final negative.
9. Where method marks are awarded for operation, the marker must inspect reasonableness of the answer.
10. Operation means 'check operation'. 'One part correct' means operation and one part correct. Note: check operation must be +, -, x, ÷, or per memo.
11. In calculations, do not award marks for workings if the numerator & denominator are swapped – this also applies to ratios.
12. In awarding method marks, ensure that candidates do not get full marks for any item that is incorrect at least in part. Indicate with an ☒.
13. Be aware of candidates who provide valid alternatives beyond the marking guidelines. Note that one comment could contain different aspects.
14. Codes: f = foreign item; p = placement/presentation; s = superfluous item

## QUESTION 3

3.1

3.1.1	SARS	✓
3.1.2	Financial Institutions	✓
3.1.3	Creditors	✓

3

3.2

**Shanice Krates, one of the shareholders and CEO argued that the directors did not deserve the performance bonus due to the fact that they failed to efficiently manage the company's working capital. Quote TWO financial indicators to support Shanice's argument.**

Any two Indicators ✓ ✓ Figures and trend ✓ ✓  
Comment ✓ ✓

Current Ratio

Increased from 1,9:1 (2024) to 4,5:1 (2025)/ by 2.6:1

Acid-Test Ratio

Decreased from 1,8:1 (2024) to 0,5:1 (2025)/ by 1.3:1

Stock turnover rate

Decreased from 13 times (2024) to 7 times (2025)/ by 6 times

**Comment**

- Too much cash is tied up in current assets/stock.
- The company relies too much on trading stock to pay off its current debts.
- Stock is selling slowly, poor strategies implemented to improve turnover.
- Company will not be able to cover short term debts without selling stock.
- According to Acid-Test Ratio, company will experience problems to pay short term debts.

6

3.3

**Some shareholders are not satisfied with the change in the dividend pay-out policy. Explain the reason for this change.**

$$\text{2024: Dividends Pay-out} \\ \frac{105}{96} \times \frac{100}{1} = 109,4\%$$

$$\text{2025: Dividends Pay-out} \\ \frac{48}{80} \times \frac{100}{1} = 60\%$$

**Figures:**

Dividend pay-out rate in 2024, 109,4% ✓ **and**  
dividend pay-out rate in 2025, 60% ✓

**or**

In 2024, 105 cents of 96 cents declared as dividend / 9 cents more than earnings declared as dividends **and**  
in 2025, 48 cents of 80 cents declared as dividends / 32 cents less than earnings declared as dividends

**Comment** ✓✓

In 2024, 9,4% of the retained income was distributed as dividends. Pay-out rate of 109,4% was to keep shareholders happy or no earnings were held back. / In 2025, 40% of earnings were retained for future expansion/ offset of future debts.

**Or**

In 2024, 105 cents of 96 cents / 9 cents more than earnings per share were declare as dividends. No earnings retained in the business. More dividends were declared to keep shareholders happy. / In 2025, 48 cents of 80 cents were declared as dividends and 32 cents of earnings were retained for future expansions.

4

3.4

**Reeves, a potential shareholder, is confused on whether to invest in the company or invest his money in long term investments in other financial institutions. Provide ONE point of advice by quoting ONE relevant financial indicator.**

Indicator ✓ Figure and trend ✓ Comment and Advice ✓✓

ROSHE increased from 17% (2024) to 25% (2025) by 8% points by 47%.

ROSHE is higher than the interest rate on investments of 9%/ by 16% points, therefore Reeves can invest in the company **since** she will be getting better returns than alternative investments at the moment.

4

3.5

The directors decided to allow the issue of more shares on 31 January 2025 instead of taking an additional loan in order to finance the operations of the company. Quote TWO financial indicators to justify the decision taken by the directors.

Indicator ✓ ✓ Figures and trend ✓ ✓ Comment ✓ ✓

**Debt-equity ratio**

Decreased from 2,2 : 1 (2024) to 1,9 : 1 (2025).

The company is still a high risk.

The company is still not in a favourable position to take out further loans

**ROTCE**

Decreased from 15,5% (2024) to 10,3 (2025)

This is lower than the interest rate on long term loans of 11,5%.

The company is negatively geared/

Loans are currently not benefiting the company, the interests paid are too high.

6

3.6

3.6.1

Calculate the amount spent by Shanice on the shares she bought on 31 January 2025. (She was allowed to buy shares equal to one fifth of the shares she already owned.)

NOTE: No shares were repurchased during the financial year.

$$1\,267\,200 \times \frac{1}{5} = 253\,440 \text{ shares}$$

If used 2025 market price:

$$253\,440 \checkmark \times R6 \checkmark = R1\,520\,640 \checkmark$$

Or

If used 2024 market price:

$$253\,440 \checkmark \times R6.50 \checkmark = R1\,647\,360 \checkmark$$

3

**ACCOUNTING  
(PAPER 1)**
**GR12 0625**
**3.6.2**

**Shanice wanted to be a majority shareholder. Explain whether she managed to achieve her goal. Show ALL calculations.**

Before issue of shares:  $\frac{1\,267\,200}{2\,640\,000} \times 100 = 48\%$

[1 267 200 + 253 440 **see 3.6.1**]

$\frac{1\,520\,640}{2\,990\,000} \times 100 = 50,9\%$  **accept 50,86% or 51% or 51.3%**

**accept 2 963 077 if used R6.50 in 3.6.1**

[2 640 000 + 350 000]

[2 100 000 ÷ 6] **or /6.50 if used R6.50 in 3.6.1**

#She did achieve her goal. She is now a majority shareholder. ✓

**Alternative calculations:**

[2 990 000/2 +1]

**accept if R6.50 in 3.6.1 [2 963 077/2 +1]**

1 520 640 ✓✓ – 1 495 001 ✓✓

**1 481 540 = 25 639 accept 30 100**

more than needed to have more than 50% ✓ of shares and therefore a majority shareholder ✓

Or

[2 990 000/2]

**[2 963 077/2 if R6.50 in 3.6.1]**

1 520 640 ✓✓ – 1 495 000 ✓✓

**1 481 539 = 25 640 accept 39 101**

more than 50% ✓ of shares and therefore a majority shareholder. ✓

**Calculations must agree with the response.**

**Numerator and denominator may not be swapped.**

**Mark one option/line. Lines can not be mixed**

**6**
**3.6.3**

**Explain ONE consequence of the decision to the company to allow Shanice to buy shares equal to one fifth of the shares she already owns.**

Any ONE valid response ✓✓

- This is an unethical business practice/Insider trading.
- The company may tarnish its image, and this will further drop the market share price.
- Loss of potential and existing minority shareholders.

**2**

3.7

At an AGM the directors stated that they were planning to repurchase 15 000 shares of a recently deceased shareholder during the following financial period at a share price of R8 per share.

Some shareholders disagreed with this decision. Explain why they disagree with this decision by quoting TWO relevant financial indicators (with figures).

Any valid response

One mark for partial response

Repurchase price compared with

NAV and figure ✓ ✓ JSE and figure ✓ ✓ Comment ✓ ✓

- The repurchase price of R8 is too expensive and is higher than the NAV of R6,35
- The repurchase price of R8 is higher than the market price of R6.

#### COMMENT

- The company experienced a drop in market price and NAV price.
- The repurchase price should be below or equal to NAV or market price since the company is struggling financially.
- Paying R30 000 more for 15 000 shares than what the market price would be for the shares. (120 000 – 90 000)

6

40

## QUESTION 4

4.1

4.1.1

**Provide ONE key factor that should be checked before donating items.**

Any ONE valid point ✓✓

part marks for incomplete/partially correct answers

- Registration of the care centre receiving the donation.
- Specific needs of the community centre.
- Evaluation of the centre's specific needs to be useful.
- Food parcels must still be in good condition/not expired.

2

4.1.2

**Explain why it is important for a business to engage in Corporate Social Responsibility (CSR). Provide TWO points.**

Any TWO valid points ✓✓ ✓✓

- It enhances the company's reputation which can attract more customers.
- It fosters strong customer loyalty which leads to better profits/market price.
- It helps the company to have the upper hand over competitors.
- This ensures long-term operational success.

4

4.2

4.2.1

**Give TWO benefits of good governance for companies.**

Any TWO valid benefits ✓✓ ✓✓

part marks for incomplete/partially correct answers

- It can lead to better financial results and improved performance./ It can also help a company achieve its financial goals and be more financially sustainable.
- It can make a company more attractive to investors.
- It can help a company build a good reputation.
- It can help build trust with employees, customers, and investors. This can lead to higher job satisfaction and commitment, and lower turnover of employees.
- It can help a company to identify risks / manage risk effectively.
- Help companies avoid costly mistakes and legal issues.
- It can help a company comply with laws and regulations.
- Decision-making: Good governance can help a company make more effective decisions.
- It can help a company establish strong internal controls.

4

4.2.2

**How can businesses apply the King Code principles of transparency and accountability? Provide TWO points.**

Any TWO valid points ✓✓ ✓✓

part marks for incomplete/partially correct answers

- Make governing documents, policies, and financial information available to stakeholders. /Share information.
- Include key stakeholders in decision-making processes.
- Oversee reporting to stakeholders on the organisation's performance and financial position.
- Disclose any transactions between related parties.
- Disclose directors' remuneration and other benefits.
- Provide opportunities for members to ask questions and hold the board accountable.
- Conduct board appointments in a formal and transparent manner.
- Consider outcomes across the organisation's triple context and all the capitals it uses.
- Disclose what performance measures and targets were used to award performance remuneration.
- Auditing of financial statements by internal and external auditors to ensure transparency of information.

4

4.2.3

**What should directors do if they have a conflict of interest? Provide ONE point.**

Any valid point ✓

- Immediately disclose the conflict of interest to the board of directors in writing.
- Recuse/Remove themselves from any discussions about matters related to the conflict of interest.
- Not attempting to influence decisions or vote on the matter.
- If the director informs the board outside of a meeting, the next board meeting's minutes must include notice of the conflict of interest.
