INSTRUCTIONS AND INFORMATION

Read the following instructions carefully before answering the questions.

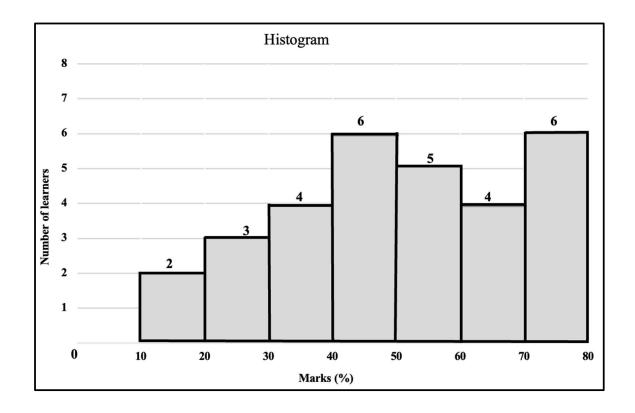

- 1. This question paper consists of 11 questions. Answer ALL questions in the spaces provided.
- 2. Clearly show ALL calculations, diagrams, graphs, etc. that you have used in determining your answers.
- 3. Answers only will NOT necessarily be awarded full marks.
- 4. You may use an approved scientific calculator (non-programmable and non-graphical), unless stated otherwise.
- 5. If necessary, round-off answers correct to TWO decimal places, unless stated otherwise.
- 6. Diagrams are NOT necessarily drawn to scale.
- 7. An information sheet with formulae is included at the end of the question paper.
- 8. No pages may be torn from this question paper.
- 9. Candidates may not retain a question paper or remove it from the examination room. Question papers must be returned to the invigilator at the end of the examination session.
- 10. Answers must be written in black/blue ink as distinctly as possible. Do NOT write in the margins.
- 11. Indicate the questions you have answered by drawing a circle around the relevant numbers on the front cover of the question paper where marks are to be recorded.
- 12. Draw a neat line through any work/rough work that must NOT be marked.
- 13. In the event that you use the additional space provided:
 - 13.1 Write down the number of the question.
 - 13.2 Leave a line and rule off after your answer.
- 14. Write neatly and legibly.
